RCA Cable

Quick Start Guide

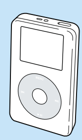

IMPORTANT!

- DC1000 is an iPod reader which transmits the signal from iPod to external speaker. It can be powered by power supply unit SA1460-240200 or SUPPLY APPARATUS FOR GENERAL USE, alternatively a special system having suitable supplying parameters through 9 pin DIN cable is available.
- For indoor use only.

What else you'll need

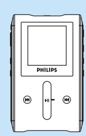

WACS7000

iPod

or

GoGear

IMPORTANT!

The docking cradle only supports the devices listed below. Do not try it on any other device!

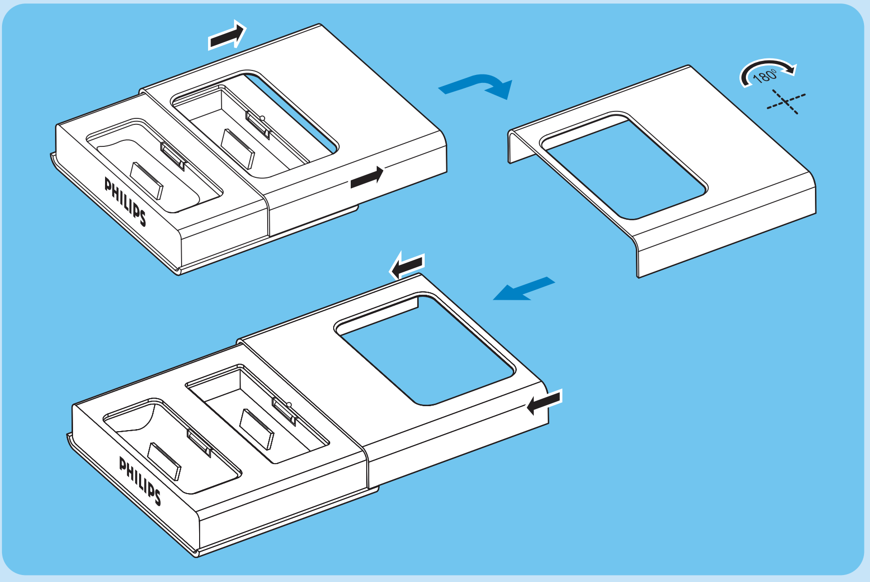

– Apple iPod (iPod video, iPod nano, iPod Photo and iPod mini)

– Philips GoGear HDD players (Charge function optional)

A1 Install

1 Change the docking cradle to match with your portable player

The docking cradle can support both iPod and GoGear. Follow steps below to change it into desired mode
– Default position is prepared for iPod
– Go to **A2 Install** for iPod user.

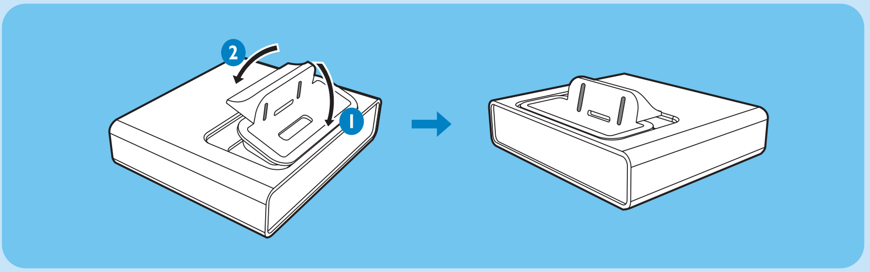

1. Slide the front cover horizontally in the direction shown above to open the front cover
2. Rotate the front cover in 180 degree
3. Slide the front cover back onto the docking cradle

A2 Install

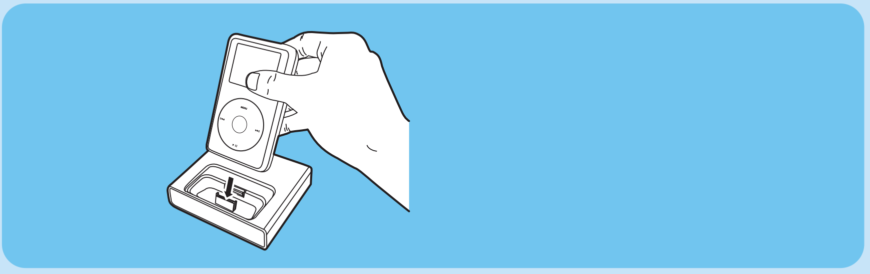

2 Install dock adaptor

Insert a dock adapter that matches with your portable player (take iPod adapter as example).

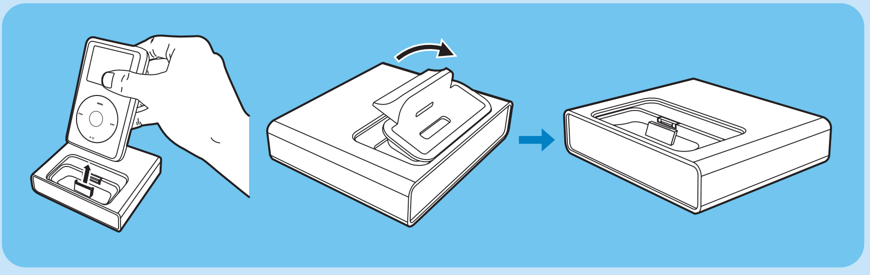

3 Install portable player

Plug your portable player into the cradle (take iPod as example).
– Turn on the power of pipe speakers.

Un-install

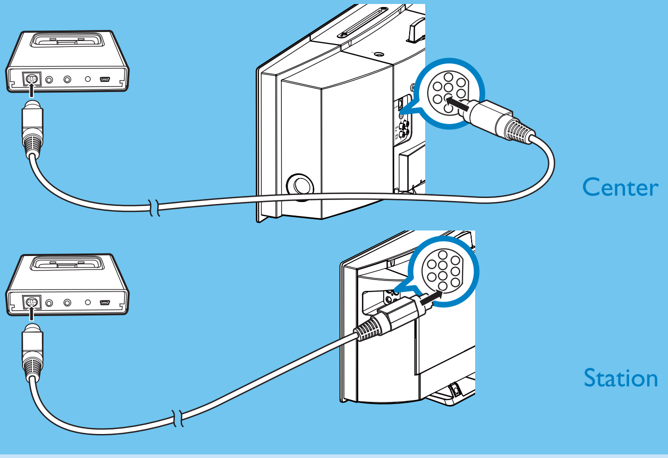

To connect with a different portable player, dismount the iPod first, then pop up the dock adapter and then replace it with a new dock adapter of the matching type.

B Connect

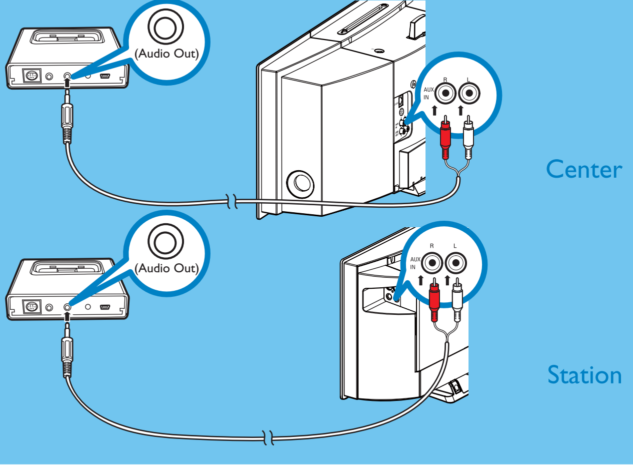

Connect AC power

The DC1000 is powered through WACS7000 by connect it with WACS7000 Center or Station via the 9 pin DIN cable.

Connect audio cable

Plug one end of the audio cable to the black 3.5mm Audio Out jack, and the other end to the audio in jacks on the WACS7000 Center or Station (note that the red terminal should be connected to the red jack).

Note: Adjust volume in case playing sound is low after connect your iPod or GoGear with WACS7000!

C1 Enjoy

When connection is successfully made, power on the WACS7000 Center or Station, then press SOURCE button to switch it to AUX mode, playing will start immediately. You can press the controls on your iPod or GoGear to skip/search for desired track or to stop playing.

Besides, you can also use the 2-way remote control that comes with WACS7000 to enjoy your iPod or GoGear with WACS7000.

Activating the 2-way remote control

Press **PORTABLE** button

Using the 2-way remote control with the docking

Note: Only the Volume button, Skip/search button and ▶II button will be effective

Play

Press ▶II to start playing

• While playing, press ▶II to stop playing temporarily. Press ▶II again to resume playing.

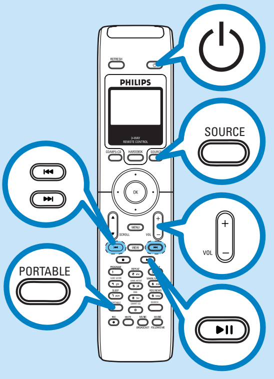

Adjust volume

Press **Volume +/–** to increase or reduce volume

Skip to the previous or next track

• Press ⏮ to skip to the previous track

• Press ⏭ to skip to the next track

De-activating the 2-way remote control

Press **SOURCE**, **HDD** or **CD** button on the 2-way remote control, the remote control will resume its function with WACS7000 and will no longer be able to control the docking.

C2 Enjoy

Charging iPod using the docking station

When the iPod is properly connected on the docking cradle and the WACS7000 is powered on, battery charging start automatically.

Helpful hint:

- You can also use a USB cable (not supplied) to connect the docking cradle with your PC to charge your iPod or GoGear

Troubleshootting

Problem	Solution
No sound	• Check if the audio cable is well connected. • Check if the power cable that connects the DC1000 with WACS7000 is well connected.
No any response after pressed the buttons on the 2-way remote control	• Check if the 2-way remote control is at **"Portable"** mode. Press the **Portable** button to switch it to Portable mode. • Point the remote control to the docking station. • Once entering Portable mode, the 2-way remote control works with the DC1000. Do not point the remote control to WACS7000 or your iPod or GoGear. • Check if the batteries of the remote control is used up. If yes, replace it with new batteries. • Only the Volume button, Skip/search button and Play/pause button is applicable. (see **Enjoy** section for details.)
Sound can't be adjusted	• Check if the audio cable is properly connected: the audio cable should be connected to the black 3.5mm jack in the middle of the backside of the docking station.
